

Four-wheel Electric Forklift

Xi16 – Xi20 P

Load capacity 1.6 t – 2.0 t | Series 1251

ION

An agile powerhouse

- Powerful electric counterbalance forklift truck up to 2 tonnes capacity with integrated Li-ION battery (Xi)
- Powerful and productive due to 90 volt technology and synchronous reluctance motors
- Exceptionally spacious operator's workspace designed to the highest ergonomic standards
- Above-average lifting and lowering speeds
- Manoeuvrable and sturdy four-wheel version (P) with combi steer or articulating steer axle
- 6 model versions with different chassis and battery variants

TECHNICAL DATA (according to VDI 2198)

Characteristics	1.1	Manufacturer (abbreviation)		Linde MH	Linde MH	Linde MH

* P = Four-wheel configuration

H = High version - for a high seating position for the driver

H = Lifting height, c = Load centre distance, Q = Load capacity
Load capacity for standard mast and fork carriage

STANDARD AND OPTIONAL EQUIPMENT

	Manufacturer's type designation/equipment	Xi16 – Xi20 P
Safety	Linde Curve Assist – automatic reduction of travel speed around corners	●
	Electric seat belt monitoring – visual and audible feedback	●
	Linde Load Assist – increased safety at high lift heights	●
	BlueSpot and TruckSpot – visual drive path warning for pedestrians and other operators	○
	Load weight indicator	○
	Linde Safety Pilot – load-dependent driving and lifting speed regulation plus additional functions	○
	Linde Safety Guard – visual and audible proximity warning between trucks or between trucks and pedestrians	○
	Speed restriction options (via switch, indoor/outdoor, load-dependent)	○
	Electrically monitored restraint system (optional monitoring: Door and/or belt)	○
	Linde LED stripes – optimum illumination of travel direction (switched or automatic) for increased safety	○
	Linde Vertilight – extensive illumination of racking, load and forks	○
	Reverse Assist Radar – rear collision avoidance	○
Digitalisation	Reverse Assist Camera – personnel detection camera system avoids accidents	○
	Online data transmission	●
	WiFi data transmission	○
	Linde Fleet Management (local and cloud-based fleet management with different functional modules)	○
	Linde Pre-Op Check – customizable daily check protocol for operational readiness, integrated in the truck display	○
Operation/ load handling	Truck Call app – coordination of transport jobs	○
	Twin pedal control – smooth acceleration and quick direction changes	●
	Single pedal control – smooth acceleration and change of travel direction via switch	○
	Linde Load Control – central control lever fully integrated into the armrest for precise control of all hydraulic functions	●
	Multifunction lever – effortless control and increased ease of use	○
Workplace	Individual lever control of hydraulic functions	○
	Innovative decoupling concept decreases whole body vibrations to reduce operator fatigue	●
	Ergonomic and safe on/off access for operator	●
	Adjustable steering column tilt	●
	Comfort overhead guard for optimum headroom	●
	Operator's seat – fast, easy mechanical weight adjustment	●
	Different operator's seat options: seat heating, air suspension, active seat suspension, fore/aft suspension	○
	Operator's seat – swivelling seat	○
	3.5" LED colour display, including steering and tilt angle display	●
	7" LED multifunction colour display integrates additional functions such as cameras, Linde Safety Pilot and Pre-Op Check	○
	Armoured glass roof window	○
	Light metal doors with wide-opening sliding window	○
	Illuminated DIN A4 clip board	○
	Electric heating – 4 heat settings and 8 air nozzles for targeted adjustment as required	○
Mast	Fully into the contour integrated air conditioning – use of existing air nozzles from the heating system for efficient cooling	○
	Radio incl. DAB+, MP3 player and Bluetooth hands-free kit	○
	High mounted tilt cylinders with maintenance-free bearings increase capacity at height	●
	Optimum visibility due to nested mast profiles on standard, duplex and triplex masts	●
Attachments/ forks	Electronically damped tilt stop	●
	Load damping for increased driving comfort and reduced wear and tear	○
	Reinforced Linde forks – easy to adjust and offering long service life	○
Axles and tyres	Integral roller-guided side shift carriage retains full truck capacity	○
	Integral fork positioning carriage 'VIEW' for optimum residual load capacity and exceptional visibility	○
	Linde combi steer axle – excellent manoeuvrability in the tightest spaces (Xi16 P, Xi18 P, Xi20 P)	●
	Linde articulating steer axle – superb manoeuvrability, reliability and robustness (Xi16 PH, Xi18 PH, Xi20 PH)	●
	Super-elastic tyres (SE)	●
	Closed shoulder CS 20 tyres	○
Drive and brake system	Anti-static or non-marking tyres	○
	Dirt deflectors/mud guards, front and rear	○
	90 volt twin motor front-wheel drive with traction control and ramp assist	●
	Synchronous reluctance motors (SRM) for traction and lifting functions	●
Energy	Operating settings – economy, efficiency and performance – for individual performance adjustment	●
	Automatic parking brake	●
	Simple, convenient charging thanks to rear charging option	●
	Charge anywhere with fully integrated, high frequency (HF) on-board charger	○
	Fully integrated 90 volt Li-ION battery	●

● Standard equipment ○ Optional equipment

CHARACTERISTICS

Workplace

Ergonomics

- Operator's workstation isolated from road shocks and vibrations by elastomer ring bearings to reduce vibration and fatigue for the operator
- Intuitive operation thanks to twin pedal control and Linde Load Control
- Wide range of ergonomic comfort seats for optimum seating position
- Fully integrated air conditioning and heating systems for optimum working comfort
- Low step-in and spacious cab with plenty of head and legroom
- Optional operating concept Linde Steer Control with joystick or mini wheel

Bird's eye view x-ray

Handling

- Lifting and lowering speeds up to 20 percent above industry standard
- Linde combi steer or articulating steer axle ensure manoeuvrability and stability for indoor and outdoor use
- Maximum speed of up to 20 km/h for fast product transfers
- Optional onboard charger provides flexible opportunity charging
- 90 volt technology ensures consistently high performance, even in multi-shift operation

Panoramic view

Safety

- Low vehicle centre of gravity ensures optimum resistance to tipping enhancing safety
- Overhead tilt cylinders for precise load handling at high lift heights
- Optimised visibility due to nested mast profiles and narrow A-pillars
- Linde Curve Assist for automatic travel speed reduction around corners
- Linde Load Assist for increased safety at high lift heights
- Automatic parking brake holds the truck securely on ramps and gradients
- Numerous optional assistance systems for additional protection

Drive axle

Service

- Robust, low-wear design of all components
- Maintenance-free, fully enclosed drive components
- Long maintenance intervals (change of hydraulic oil and hydraulic oil filter after 6000 hours)
- Easily accessible components lead to fast, efficient maintenance
- Remote diagnostics and predictive maintenance through data analysis reduce downtime
